

Medical card ↔ class start math

Map your **medical certificate end date** onto class start and skills-test day *before* you pay. Avoid starting (or testing) with an expired card.

Independent — not FMCSA. Not a DMV publication. Not medical advice.

- **Pair with** [skills-test day kit](#) (bring current medical).
- Confirm your state's CLP / skills rules yourself — we invent no deadlines.

Dates (from your documents)

- ☐ Medical certificate / card expires: _____ (print / photo ☐)
 - ☐ Class / theory start date (written): _____
 - ☐ Planned BTW / skills window: _____ → _____
 - ☐ Skills / road-test appointment (if set): _____
 - ☐ Days between class start and medical end: _____ days
 - ☐ Days between skills test and medical end: _____ days · ☐ Safe buffer ☐
- Too tight ☐ Already expired risk

Act before money moves

- If medical ends before skills day → renew / reschedule *before* deposit when possible.
- School won't put start / skills dates in writing → pause; use [quote script](#).
- Registry re-check still required the morning of test day.

Decision: ☐ Proceed ☐ Renew medical first ☐ Reschedule · Notes:
