

Medical examiner vs school-affiliated clinic fork

Blanks when a school steers you to **one clinic**. Force copy of FMCSA National Registry vs school referral. Invents no medical rules. Pairs medical-class-start-math + DQ self-check. Independent — not FMCSA. **Not medical advice.**

- **Order:** registry check → this fork → [class-start math](#) → deposit.
- School “our clinic” talk ≠ the only legal medical examiner.
